THE RUBY LAMP MANUFACTURING CO., Inc.

p r e s e n t s

SKETCH BOOK No. 5 for 1936 - 1937

The following pages represent a wide variety of commercial, residential and special lighting fixtures types which are designed and manufactured on our premises and surpass all previous efforts in design and originality.

It is intended to be a practical hand book and an aid to dealers in selling, as well as for consumers in selecting proper lighting fixtures in advanced styles.

Together with this Sketch Book, our designing staff is prepared to assist you in laying out and closing jobs of all kinds.

GENERAL INFORMATION

Standard Glassware

All of the units shown are of white opal glass from our own moulds or those of reputable glass makers, unless otherwise specified.

Sheet glass in opal, flashed opal, plate, amber or other obtainable glass is carved, frosted and bent in our own factory.

Finishes

The following are the standard finishes—Pewter, Cadmium, Polished Nickel, Bronze, or combinations of these with Polychrome. For chromium there will be an additional charge of 20 % per fixture—other special finishes, add 10 %, unless otherwise specified. Where aluminum spinings are used and bronze is required, a sprayed bronze will be furnished; if brass is required, then there will be an extra charge of 15 %.

Lengths

Lengths shown in this price list are approximate and furnished up to 42 inch overall. Spreads are measured overall. An additional charge of 25 cents per running foot will be made for all lengths of chain or tubing in excess of our standard 42 inch overall.

ALL MERCHANDISE F. O. B. NEW YORK

Packing and Shipping

A packing charge at cost will be made for all large fixtures that require more than a standard size carton. Shipments will be made by express unless otherwise indicated. Ten days to two weeks are required for ordinary shipments. All claims for breakage must be made on Transportation Company. We ship and accept receipt in good order.

Wiring

All fixtures are listed wired. 5 % can be deducted for fixtures wanted bare. When ordering, please furnish all possible information and detail as to overall length, finishes, lights, etc., as well as carrier and routing, to expedite shipments.

Special Work

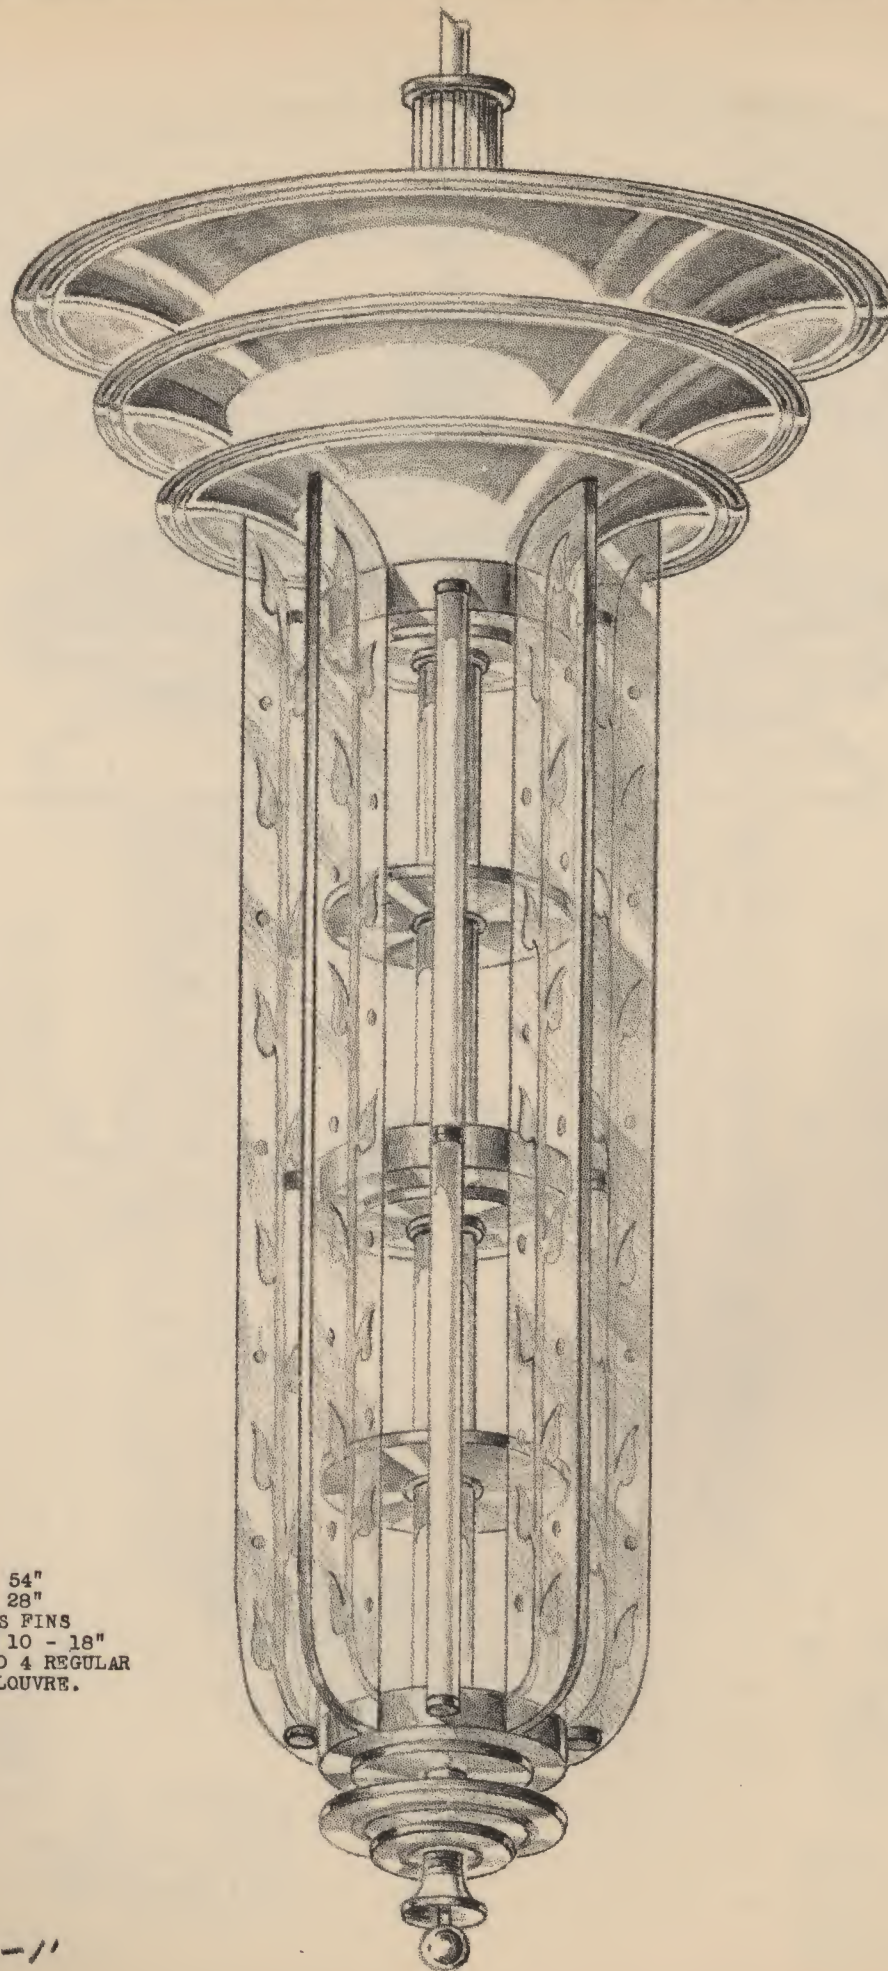

Our designing department is equipped to assist dealers in getting special jobs. This service is at the disposal of dealers.

430 WEST 14th STREET, NEW YORK CITY

PRICE LIST - SKETCH BOOK No. 5

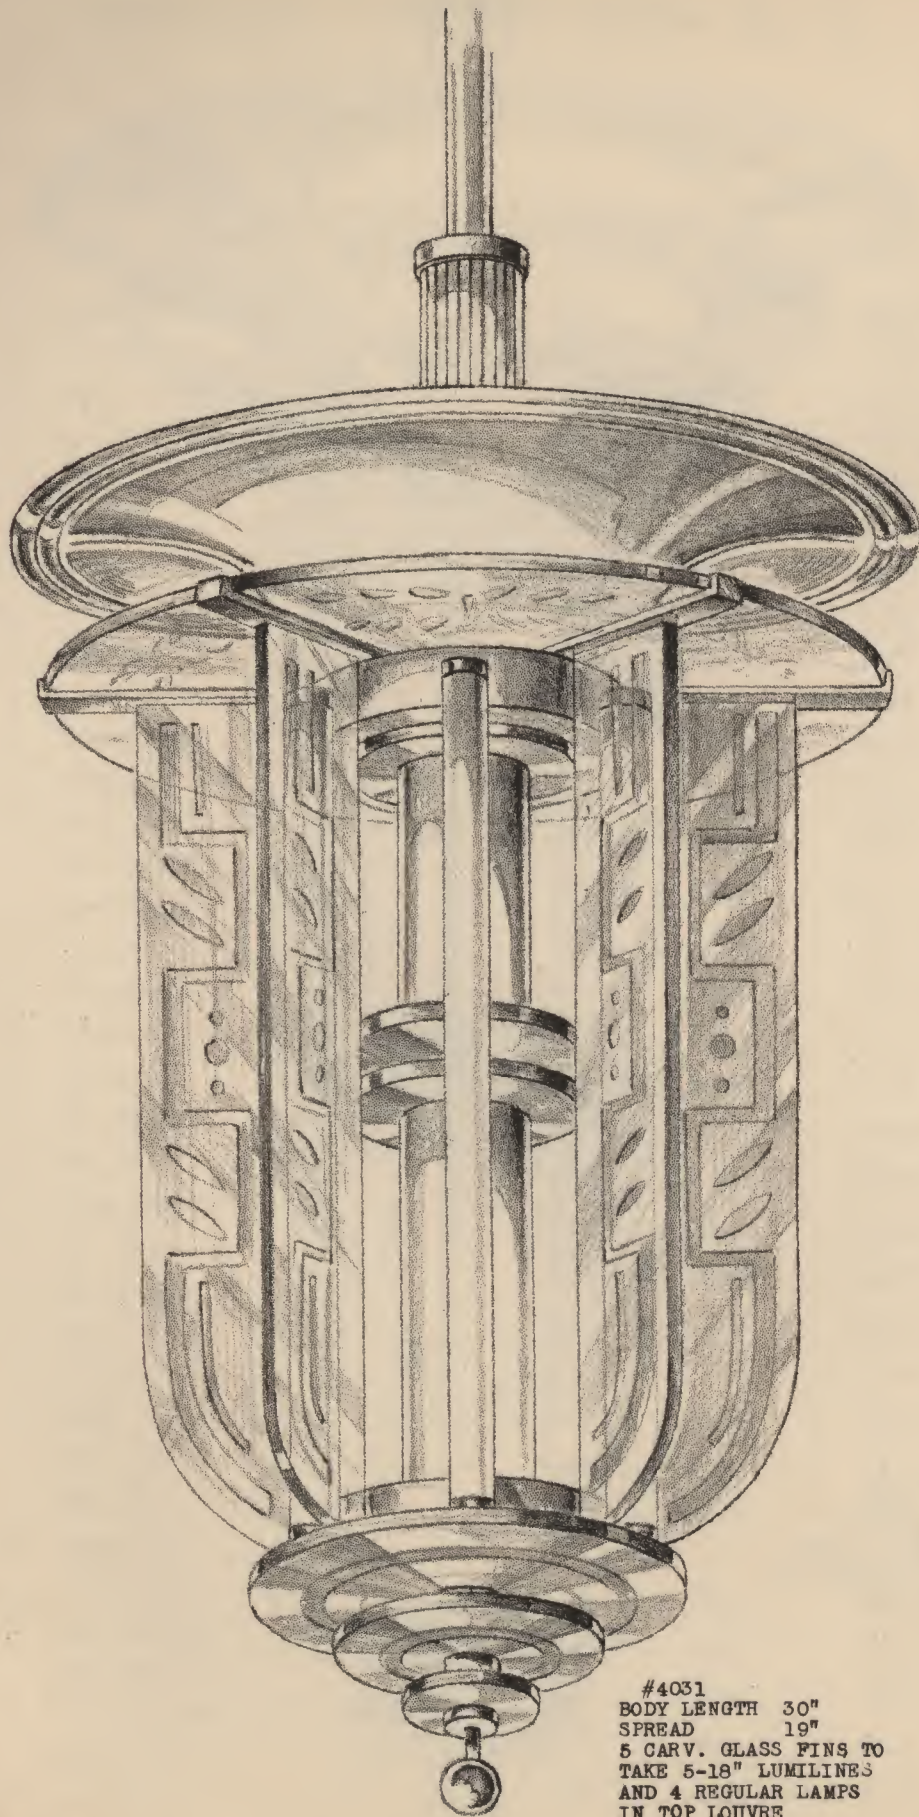

1936—1937
